MAXIMCHUK—MICHAEL EDWARD ALEXANDER
passed away peacefully after a lengthy illness at the
Calgary General Hospital on June 10, 1980. Predeceased
by his beloved wife Mary in 1974 & his only brother
Miro in 1979, he is survived by three loving daughters:
Dr. Arlene Crowe of Kingston, Ontario; Mrs. R.E.(Iris)
Farries of Calgary; Mrs J.J.(Lorna) McMullen of Calgary;
five cherished grandchildren; Ann, Donald, & Nancy
Farries; David & Mary Lynne McMullen; also one
cherished great - grand daughter; Elizabeth Farries.
Born September 20, 1904 in Sifton Manitoba, he grew
up in Toronto Ontario & Wakaw Saskatchewan. Prior
to his retirement in 1968, he spent 41 years as a
Government of Canada Postal employee, primarily as
a Railway Mail Clerk in Saskatchewan & Alberta.
Private cremation service was held June 13, 1980.
If friends so desire, in lieu of flowers, donations may
be sent to the organization of their choice.

M. MAXIMCHUK
APT. 911 105, 26 AVE. S.W.
CALGARY, ALTA. T2S 0M3

Aug. 8th, 1977.

Greetings,

1. Rec'd your letter a few days ago. I find, that if I don't answer any letters the day that they arrive here or the day after, I too can oyt things off. However, here goes!

2. Don't blame you folks in the least for grabbing that house with only the U utilities to pay for four months. It's not very often that one gets such a chance!

3. As you can see, I am addressing this to the house address. Sold my house at 117th Street in October, 1974, it'll soon be three years, for 40,000.00 and that included drapes, the stove and the fridge. That was net to me, comm. agents on top of that. A chap from Yellowknife bought it, but I don't think he lived in it himself but sold it to others. I have no regrets. The interest on the payments for cash, have brought me quite a bit so I have no regrets. Money & what is it the measure of? NOTHING! Inflation? NO! It's credit amplification that does it! We have mortgaged our children and grandchildren when I say we, I mean we collectively. Infatflation? its when too few goods cause a lot of money, or the other way around, but so far it's easier to fall in with the media than to fight it. As you know the Ed. Journal and the Calgary Herald are both against Technocracy and so is the whole Suotham Chain of other papers tho' they have published the odd letter.

4. Yes, I know the HUB building? Attended the 'Official opening' Of the Victoria Section in January this year. They had been operating out of a house. They pay 80.00 a month rent. And they have a business phone there. I attended the Membership Meeting and a couple of Syndays I helped them man it. Gave them a batch of older folks for contacts. If you want to know more about them send your letter to the Section care of the (Organizer, Art Tommasen. I work on my own here, I send out about ten a day of Briefs, and no doubt you have noticed that I also send clippings to our Magazines and others. Yes, the residential phone is going up some forty or is it 45 cents. So you can expect the business phone. Say hello for me to Bob Taylor, Jack Gregory and the rest of the Members. Tried to get a phone some time ago when I was in Edmonton but they wanted a 'business' phone only tax or what have you and I figured That I could spend the money better in promoting Technocracy. As said before, I'm still an MAL and work on my own.

5. Don't expect a sudden influx of Members because you have an office. I'm convinced that over 90% of the people DON'T THINK. Heck they don't think of their own welfare! In the meantime those of us who are still around, aren't getting any younger. I could say a lot on the subject! But you know it as well as so many others do. The great majority of people are not SOCIALLY conscious. The Chief told us that the closest approach to a man's brain (if its not a blank) is thru the stomach. HOW TRUE!

6. Yes, I've met Arvid Peterson in Seattle and in Vancouver. But what kind of a Speaker he is I do not know as I did not hear him but he has a bunch of slides that he uses to explain Technocracy and they are GOOD.

7. Here in Calgary the car and furniture people and others too are advertising to beat the band, guess business is not so GOOD! And this in the 'richest' prov. In Canada. Watch next Oct. & Nov.! The Quebec situation is the R.C. Church! same as in ~~XXXXXX~~ Ireland. Technocracy published in the T. Digest back in July '44 an article by the Chief on Bloc Populaire. Could tell you plenty!

8. We have a chance not a CHOICE! SALUTE! *mu*

Dear Sir,

I have the honor to acknowledge the receipt of your letter of the 10th inst.

and in reply to inform you that the same has been forwarded to the proper authorities for their consideration. I am, Sir, very respectfully,
Yours obedient servant,

1 August, 1977

Greetings Max:

1. The date on your last note is April 22nd. Here it is 1 Aug., over 3 months later. Not very good correspondent, am I?
2. I'll backtrack and give you an up-date, some of which you may already know. In January a friend of mine living in Edmonton offered their house while they visited at the coast. For the cost of the utilities we could live in Edmonton very comfortably during Feb. & March. We took the offer, partly because our two children are here - one married daughter and one son in University; plus some other relatives of my wife Edith. It also gave me an opportunity to further my promotion of Technocracy in this area, as official Organizer. I had in mind trying to develop something of a reasonably permanent nature - an office. The offer of the house was later extended to cover April and May. We stayed.
3. As you know we had been considering buying in Edmonton for years. This period gave us a chance to look carefully for something suitable. Convenience for Edith, in view of her disability, was a prime consideration. We settled on our present home after 2½ months of looking. It is near Southgate: 11515 39th Ave., Postal Code T6J 0M5; phone 434 4496. Of course we have lost a bag full of money by delaying so long. I remember your hope was available for something like \$22,000 I think. It would be 3 times that now, at least. They say inflation has eased from double digit to about 8% now. That is monetary inflation. Credit inflation has made up the difference, running at perhaps 15% for housing, 22% for farm lands, etc. Either way the debt structure grows and the banks are satisfied. It cant go on.
4. Concurrently with house hunting I looked into the question of office space for a Technocracy HQ. I knew about space in HUB, as my son had been here and I noticed the vacancies in the Mall line-up of commercial stalls when I visited him. I ended up with a nice little office, 2 level, about 150 sq. ft. of useable space, at the north end of the HUB Mall. (HUB stands for Housing Union Building.) This is a unique structure originally built by Student's Union money, but now taken over by the University. You probably know about the building - or was it up when you were here? We have half a dozen members trying to make a go of this venture. The rent is \$82.00 a month. Telephone is \$17.50 and going up I believe. We have literature and stationery to buy, and promotional efforts. All told I think our budget will have to aim at about \$200 a month for a successful operation. We are far from that as yet. Utilities are included in the rent. Also a \$20.00 fee for the Merchant's Association, which will give us some 'free' publicity. One item has been 3000 bookcovers for summer students, with our ad well placed.

Over →

5. We have picked up a couple of former members, but response from the general public has been very slight so far. Of course we have not been able to man the office with any regularity so far - shortage of manpower. We will need another winter session to see if we can make a go of this. I did not specifically aim at association with the university or for contact with the students. It just happened that this seemed the most suitable office space at the time. However it turns out that it has many advantages and we would hate to lose it. My basic aim was to make Technocracy visible and accessible in Edmonton. We will be listed in the next telephone directory. A step at a time.

6. The Calgary group has been instrumental in lining up a speaker for this Fall. If it works out, Arvid Petersen of Seattle may be in Calgary around 1st Nov. and Edmonton around 3rd November. I just hope we can handle such an event, however small and modest it may have to be. Total expenses will be at least \$200 I would guess.

7. We appreciate the information you passed to us on the treatment for Multiple-sclerosis. Edith has been on the sun-flower (SAFLO) diet for quite a while. The information you gave us re-inforces and verifies this procedure. Edith was also getting injections of Vitamin B-12, I think it was. She is seeing Dr. Moncton this week. She has been slowly regressing of late, perhaps due to the work and stress of moving. I anticipate some degree of remission as our lives stabilize again. Our real hope of course is that science will find a treatment and eventually a complete cure, beyond anything now available. Science has been vilified by certain sectors of society but I doubt if there is anyone in America today, with few exceptions, who does not look to science for answers to every desperate problem; and foremost among the problems is personal health and well-being.

8. There is an unbelievable avalanche of words and images being imposed on the public today by the front men of politics, religion, economics, business, labor, education, media, etc. all of which adds little in the way of enlightenment or leadership. We appear to occupy a unique and solitary position of fundamental objectivity in our analysis, and scientific projection in our technocratic design. It is hard to understand the continuing and nearly total disregard for our position, our proposals. But we hang on. If we are right, the accumulating problems of the Price System will eventually give us the break we have long anticipated. I suppose it could be a subtle and evolutionary development, in which we play a very limited role; nevertheless, it will be our day, for it will be the technocratic solution, the technocratic design.

Salute!

April 22nd, 1977.

Greetings,-

Just a short note to send you, a copy of the Lancet Magazine for March, 1973 sent to me by my daughter who is a Dr. of Bio. Chem. and is on the staff of Queen's University in Kingston, Ont. essentially it deals with M.S. and she says, "essentially what they say is that two-three tbsp per day of sunflower oil and high vitamin content (supplementation) are beneficial, and the person should also cut down his or her intake of saturated (animal) fats. The daughter of one of our secretaries has been following this dietary regimen so faithfully and when she ran out of sunflower oil (she lives in New Br.) her numbness increased and once she was back on it decreased again in two weeks--that's the only personal anecdote I have "

Excuse the mistakes in typing. The Price System is sure going to hot and fast too.

Had a letter from the Ohio area area (20) and others but they say the same thing.

SALUTE!

M. Max

2 Reply to Fisher

it should reasonably follow that since that is exactly what we want, we should be able to welcome the development.

Obviously there is plenty of reason for concern as long as this faltering Price System stumbles along. We should recognize, then, that something is sadly lacking in the economic system we now "enjoy."

Technocrats are available to describe the alternative to this failing Price System. All we ask is investigation. The time is overdue for a scientific approach to society's basic problems. Why be uninformed any longer? Ask a Technocrat!

J. H. Miles.

DRAFT

First draft of a letter to the Editor of the Edmonton Sun:

"A recent article by Doug Fisher (Edmonton Sun of May 10/83) was 'on track' in signalling job losses through "hi-tech" on the railways and elsewhere.

For 50 years Technocracy Inc. has been drawing attention to the fact that machines are made to replace human ~~engine~~ 'engines' in the production of goods and services. What is wrong with that? Is that not what we want to do: reduce human toil so that we can enjoy more leisure?

Institution The difficulty is not with the technology, but with the system *controlling* in use all over the world, the PRICE SYSTEM. Technologists have succeeded in solving the problem of producing at a high rate. But the structure which attempts to conduct the flow of purchasing power *using value* through exchange, based on commodity evaluation, is inexorably declining toward complete deterioration and collapse.

It should be obvious that machines do not make jobs, but create unemployment.

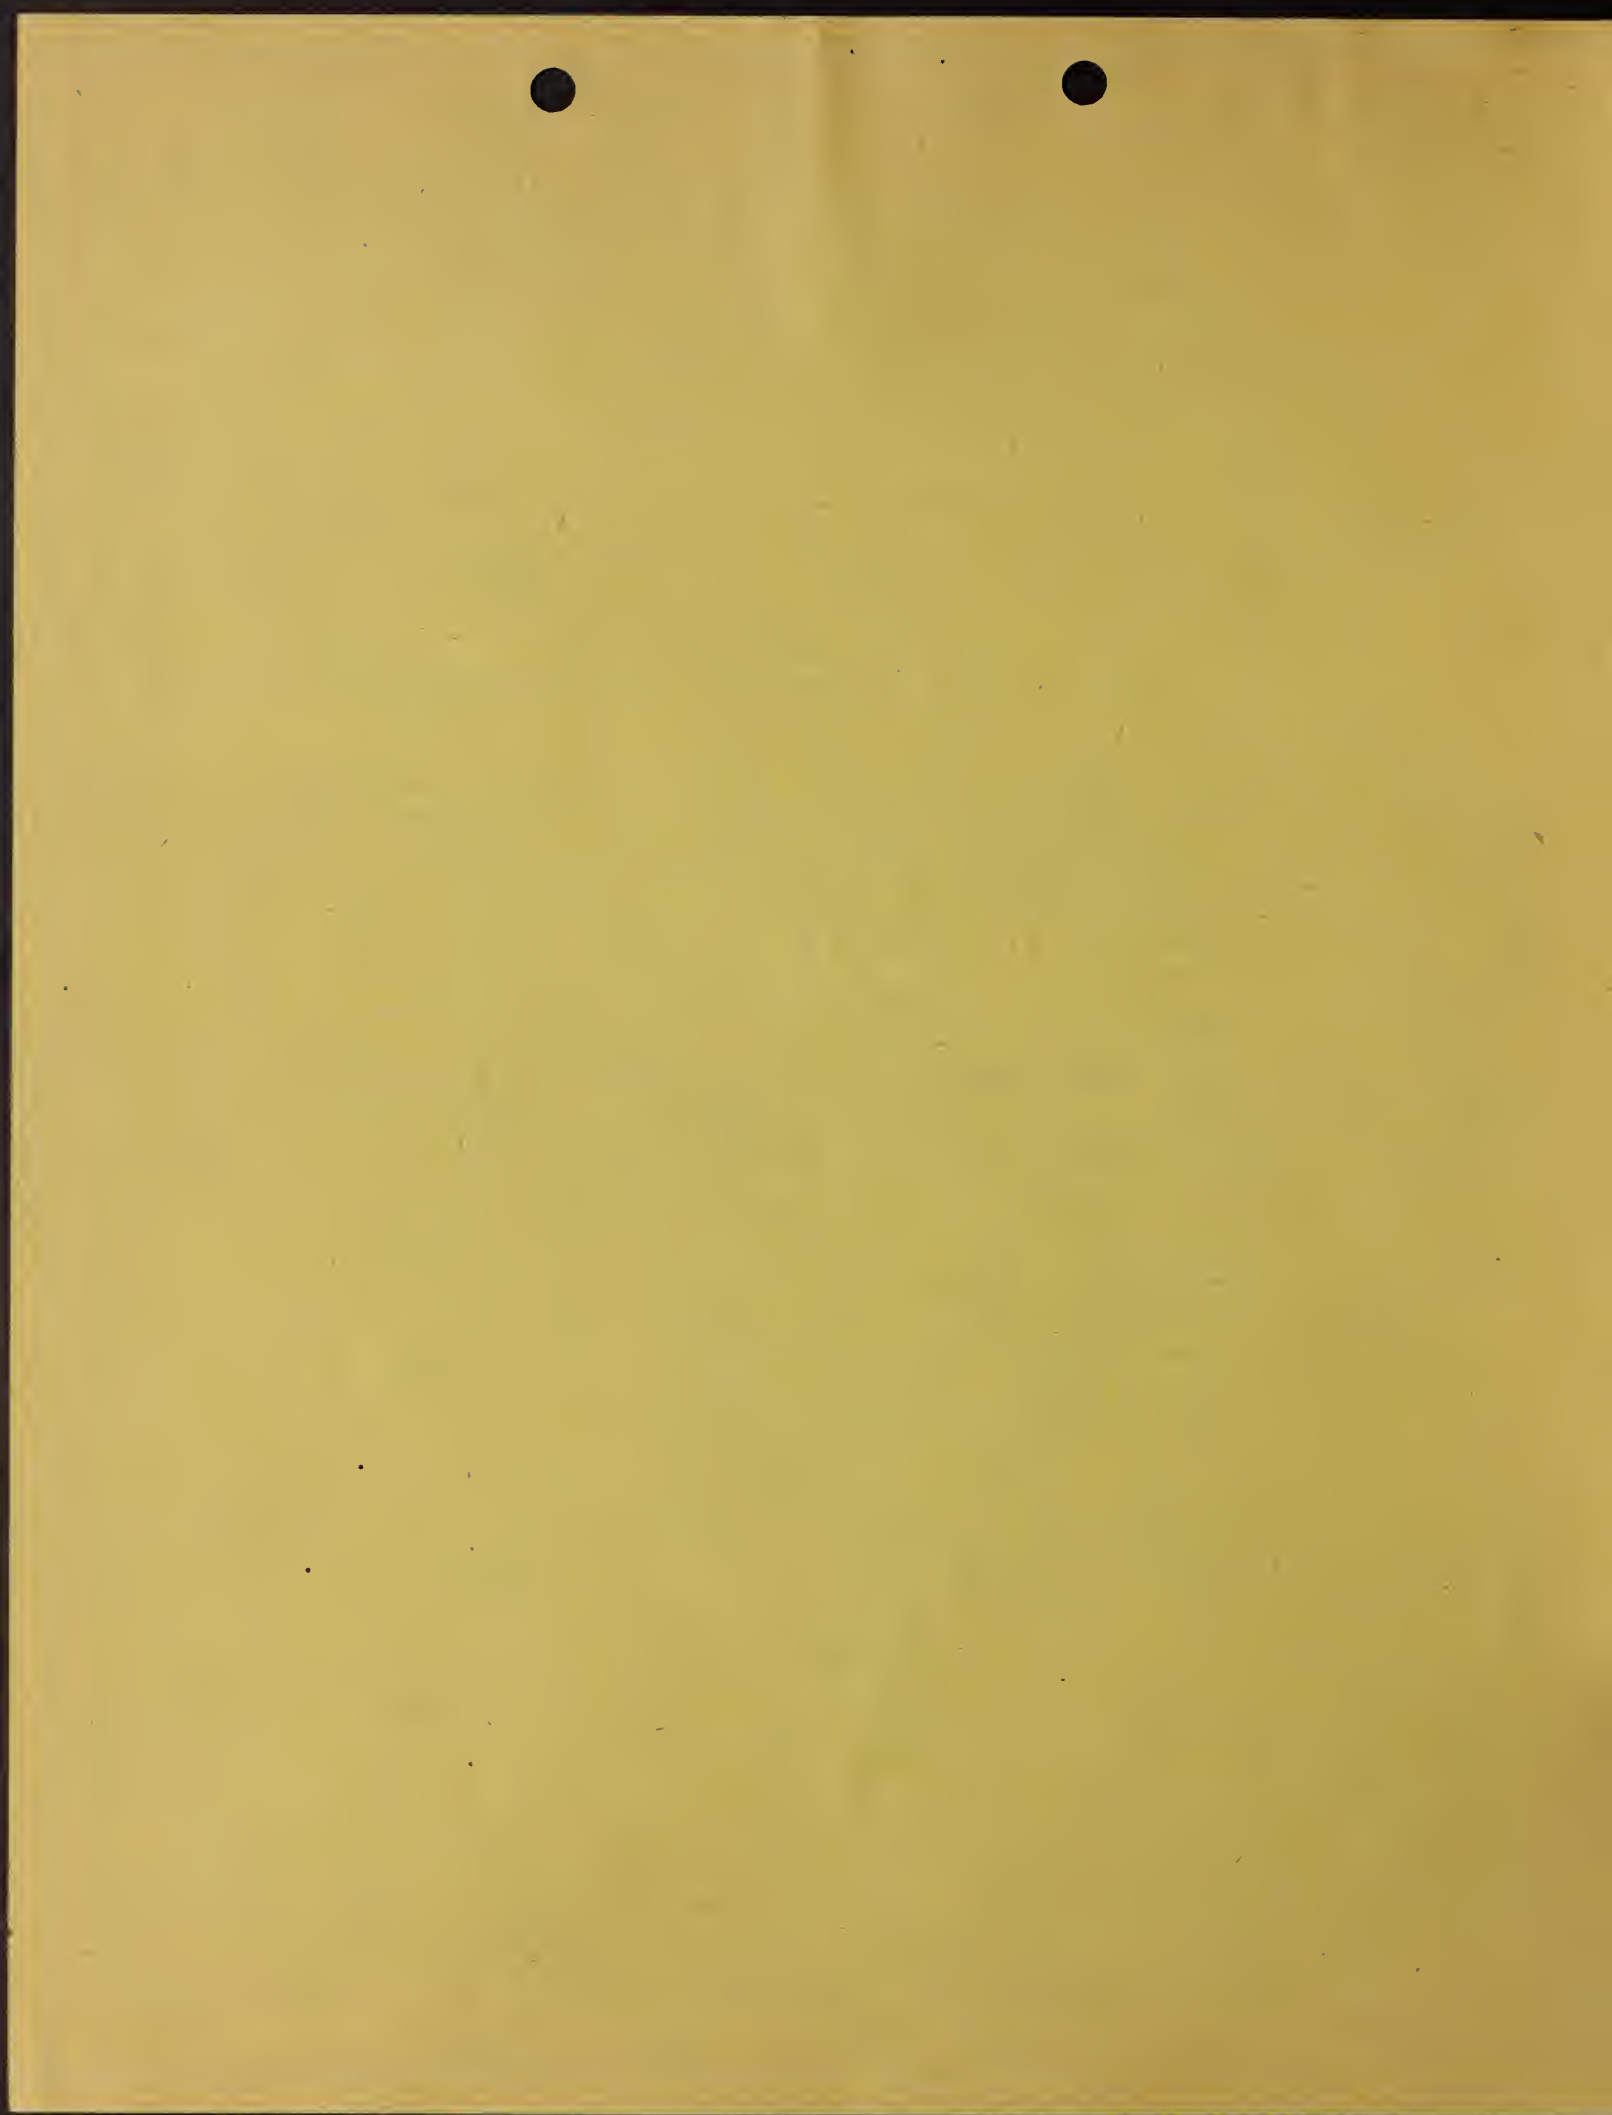

But *reasonably* if our object in making machines is to save human labour it should follow to ~~reasoning minds~~, that since that is exactly what we want, we should be able to welcome the development.

Obviously there is plenty of reason for concern as long as this *existing* Price System stumbles along. We should recognize, then, that something is sadly lacking in the economic system we now 'enjoy'.

Technocrats are available to describe the alternative to this failing Price System. All we ask is investigation. The time is overdue for a scientific approach to society's basic problems. Why be uninformed any longer? Ask a Technocrat!

①
A recent article by Doug Fisher (Edm.
Sun, May 10/83) was on track ~~in~~ on
~~the~~ signalling job losses through
his tech on the railways and elsewhere.

For 50 years Technocracy Inc.
has been drawing attention to the
fact that machines are made to
replace human engines in the
production of goods and services.
What is wrong with that? Is
that not what we want to do -
reduce human toil ~~to~~ so that
we can enjoy more leisure?

The difficulty is not with the
technology, but with the system
in use all over the world, a
price system. ~~With~~ Technologists have
succeeded in solving the problems of
producing at a high rate. But the
structure which attempts to conduct
the flow of purchasing power through
exchange based on commodity evaluation,
is inexorably ~~driving~~ declining toward
complete deterioration and collapse.

It should be obvious ~~the purpose~~
~~recognizing the importance of~~ ~~the~~
~~fact~~ that machines do not make jobs,
but create unemployment.

Walter - read & criticize

Hi-tech, high unemployment?

OTTAWA — In the '50s, when railways turned from steam-engine to diesel, there was a town I knew well; a divisional point, its well-being was the CNR.

In the current talk about hi-tech and jobs lost or to come my memory runs back to that switch in motive power three decades ago.

The range of attitudes over the switch ranged from a few in the town who preached resistance, particularly a non-accommodation by rail unions, to a few over on the bright side who prefigured faster service, more traffic and jobs, higher pay for easier work. In between were the majority, their reactions unsure.

Those small rail towns then mirrored much the same hope and insecurity in people today as they anticipate the recession's end.

But easier times are doubtful. Unemployment will stay high, may even be permanently high. Fewer workers are needed because of "the chip" and the imperative of upping productivity. Put another way, capital investment in better machines leads to fewer workers, much like the diesel engine's introduction.

Beyond the jobs lost or the blight on their increase, the communal dilemmas deepen. Back in the '50s railroad towns and their folk got minute national empathy in their fret about "progress". When the railway firemen struck against a phase-out of their role, both government and public reactions were nasty. The railway communities cared but no one else did. So the diesel change took place, rather swiftly.

Public indifference or approval, attrition by retirement, the ready availability of other jobs, in sum the boom years, greased this big and rather swift evolution on the railways. Oldtimers in railway places may look back nostalgically but not with deep remorse or bitterness, largely because there was a capaciousness in the country's economy and social system (re-training programs, pensions, UIC, union-gained protective clauses such as severance benefits).

Although the oil crisis later cast doubt on the wisdom of forsaking steam power, the railway evolution was not even mildly catastrophic except to the Chamber of Commerce sort of dreams in 60 to 70 towns for which the railways were all, or almost all.

The diesel switch had effect in definite and limited places. Although a part of a near global change, it was largely fixed in one industry and that an enabling industry, not a primary one. Today's and tomorrow's changes are global, almost inescapable. They are penetrating much more than goods-producing

Edna Lee Sun

May 10, 1983

DOUG

FISHER

industries and their handmaiden industries like transport. See what Japanese pioneering at robot-manned auto lines are forcing in our auto industry. See what word processors, computer storage and access, etc. are doing to reduce both clerical and sales jobs. In our current labor force of 12 million, 3.3 million of us clerk or sell.

More significantly, the diesel switch was in a national and continental context of growth, expansion, and a marvellous belief in progress through education, government example, etc. Remember the post-Sputnik brain-storming? Recall the confidence of our '60s. How better education tied with automation to guarantee a more leisured, culturally-aware, finer life. Indeed, "lifestyle" came from nowhere to become everybody's cliché.

Today our faith in governments has fallen, abysmally. Last week gave good cause. A federal minister uttered placebo platitudes on high technology as means to a rosy future coincident with a treasonable employee's leak of a dour, internal report on hi-tech change which forecast long jobless rolls for the understandable future. This despite a birthrate moving the past 30 years towards zero growth.

Suddenly unemployment, across the board of occupations, has vaulted far ahead of inflation as national fret. "Structural unemployment!" Even too many doctors, lawyers and accountants.

And how the responses to this bleak vision swirl and contradict! Work-sharing. Shorter hours. More holidays. Earlier retirements. Re-training in perpetuity. More trade. Higher tariffs. More foreign investment. Higher productivity. Private sector entrepreneurship. Restricted unionism. Free enterprise. Nil immigration. Open the North. Put the kids in the services. Tighten our belts. Emulate the Japs. Reduce benefits. Stop coddling. Be confident. If you can't boost, don't knock.

A prediction! The inflation syndrome in politics, symbolized by the hound-faced earnestness of Gerald Bouey, flourished for almost a decade. In apogee the jobless syndrome will be longer and higher.

Walter Dugan
Technology Inc.

Walter:

This is a transcript of a 5-minute speech I made at Westminster United Church.

Enclosed are my dues for 1982 plus a small donation.

I have had surgery recently & am recuperating, but not driving the car yet.

However will be in touch shortly.

Jack Miles

9236-14851
Jan 11, 1982.

I HAVE FIVE MINUTES TO DEAL WITH THE MOST CRITICAL ISSUE THAT FACES MANKIND.

LAST WEEK WE HEARD FROM ECCLASTIASTES ABOUT A TIME FOR EVERYTHING, INCLUDING "A TIME OF WAR AND TIME OF PEACE."

IF NUCLEAR WAR STARTS YOU MAY HAVE TIME FOR THREE ACTIONS:

1. KISS YOUR CHILDREN GOODBYE
2. GET THE MOST OUT OF THE FEW MINUTES YOU HAVE LEFT TO EXIST
3. PRAY YOU WILL NOT BE A SURVIVOR.

PRESIDENT KENNEDY SAID, IF NUCLEAR WAR OCCURS, THE "LIVING WILL ENVY THE DEAD."

EACH OF THE SUPERPOWERS IS EQUIPPED TO DESTROY THE OTHER SEVERAL TIMES OVER. THE WORD "OVERKILL" HAS BECOME A PART OF MODERN VOCABULARY. IS THIS A TIME FOR HATE?

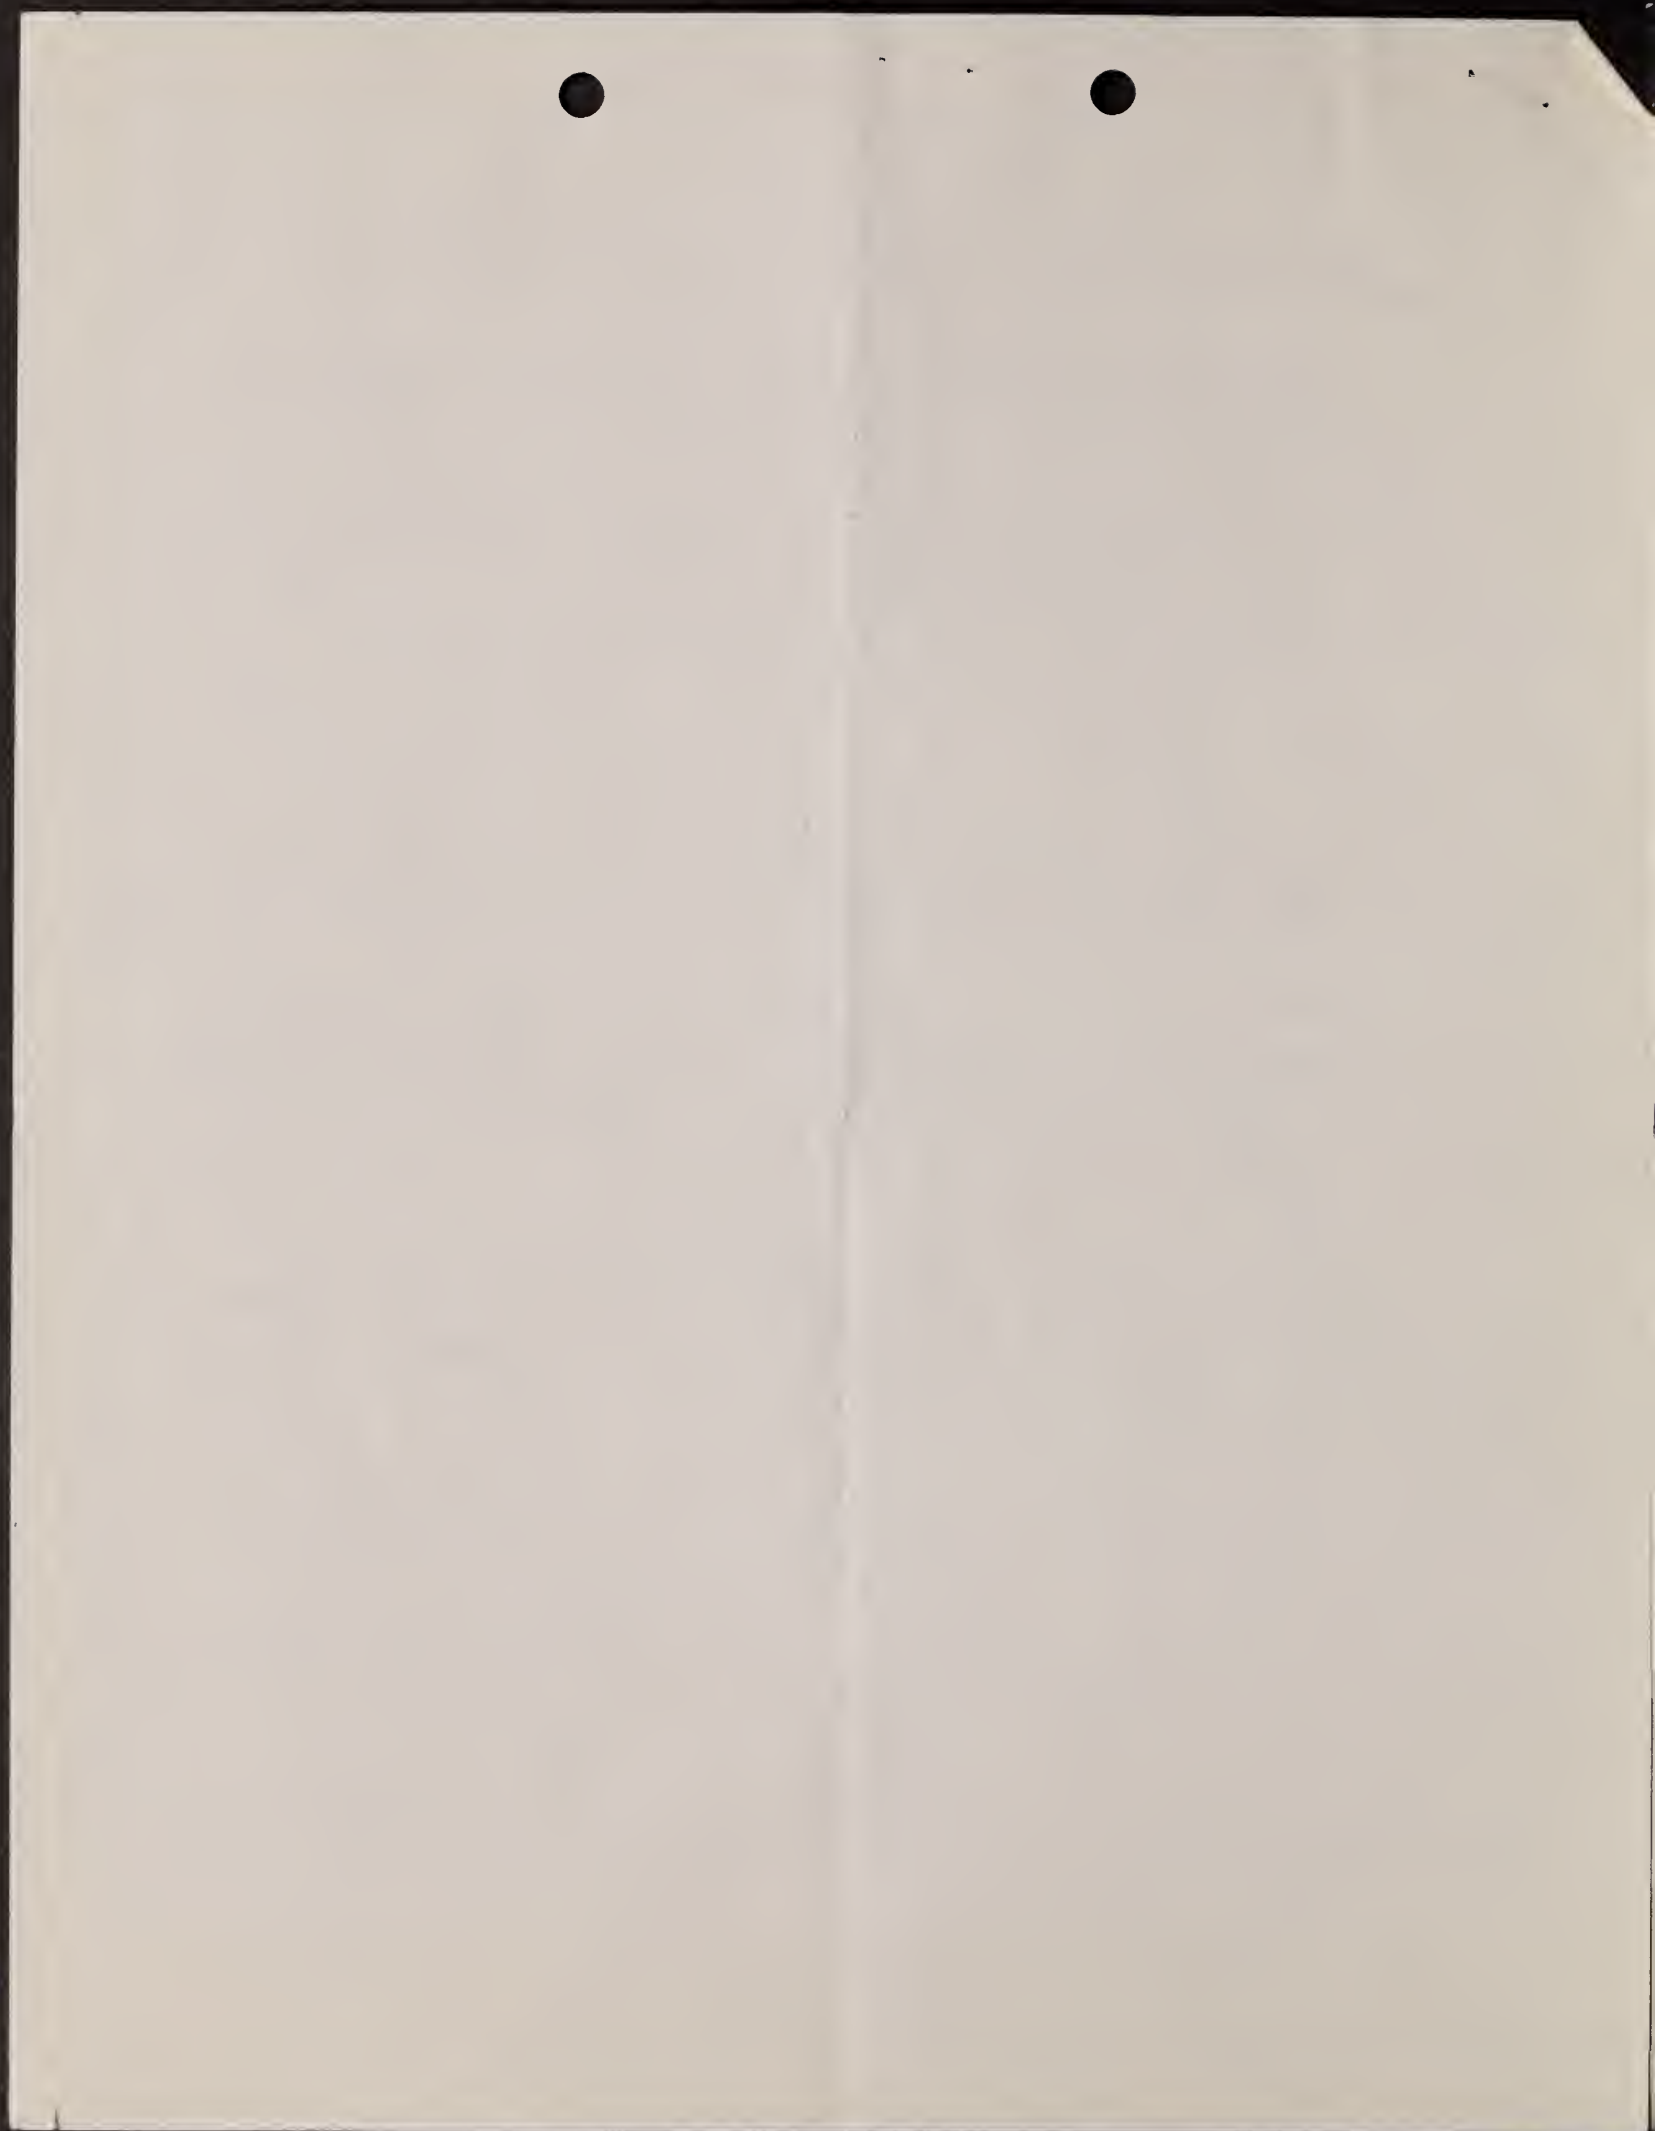

THE MILITARISTS TELL US WE CAN HAVE A NICE LITTLE NUCLEAR WAR, SAY IN EUROPE, WHERE WE CAN'T GET HURT MUCH. A "LIMITED" NUCLEAR WAR, THEY CALL IT.

WE ARE SUPPOSED TO BE GRATEFUL THAT ONLY PARIS, OR EDMONTON, OR NEW YORK MAY BE THE SELECTED CITIES DESTROYED. WHAT'S A HALF MILLION, OR SIX MILLION HUMAN BEINGS? BABIES, OLD FOLKS, YOUNG PEOPLE, MEN AND WOMEN.

GENERAL EISENHOWER, SHORTLY BEFORE HE DIED, SAID "I'D LIKE TO THINK THAT THE PEOPLE IN THE LONG RUN ARE GOING TO DO MORE TO PROMOTE PEACE THAN OUR GOVERNMENTS. INDEED I THINK THAT PEOPLE WANT PEACE SO MUCH THAT ONE OF THESE DAYS GOVERNMENTS BETTER GET OUT OF THEIR WAY AND LET THEM HAVE IT." THIS IS A TIME FOR DISARMAMENT.

HYDROGEN BOMBS ARE NOW DEPLOYED WHICH CAN BE FIRED AT SEVERAL TARGETS AT ONCE FROM ONE VEHICLE.

IT IS A TIME FOR CRITICAL APPRAISAL OF WHAT MILITARISTS HAVE IN THEIR POWER. AMERICAN GENERAL MACARTHUR SAID "GLOBAL WAR HAS BECOME

A FRANKENSTEIN TO BOTH SIDES." THIS WAS 20 YEARS AGO.

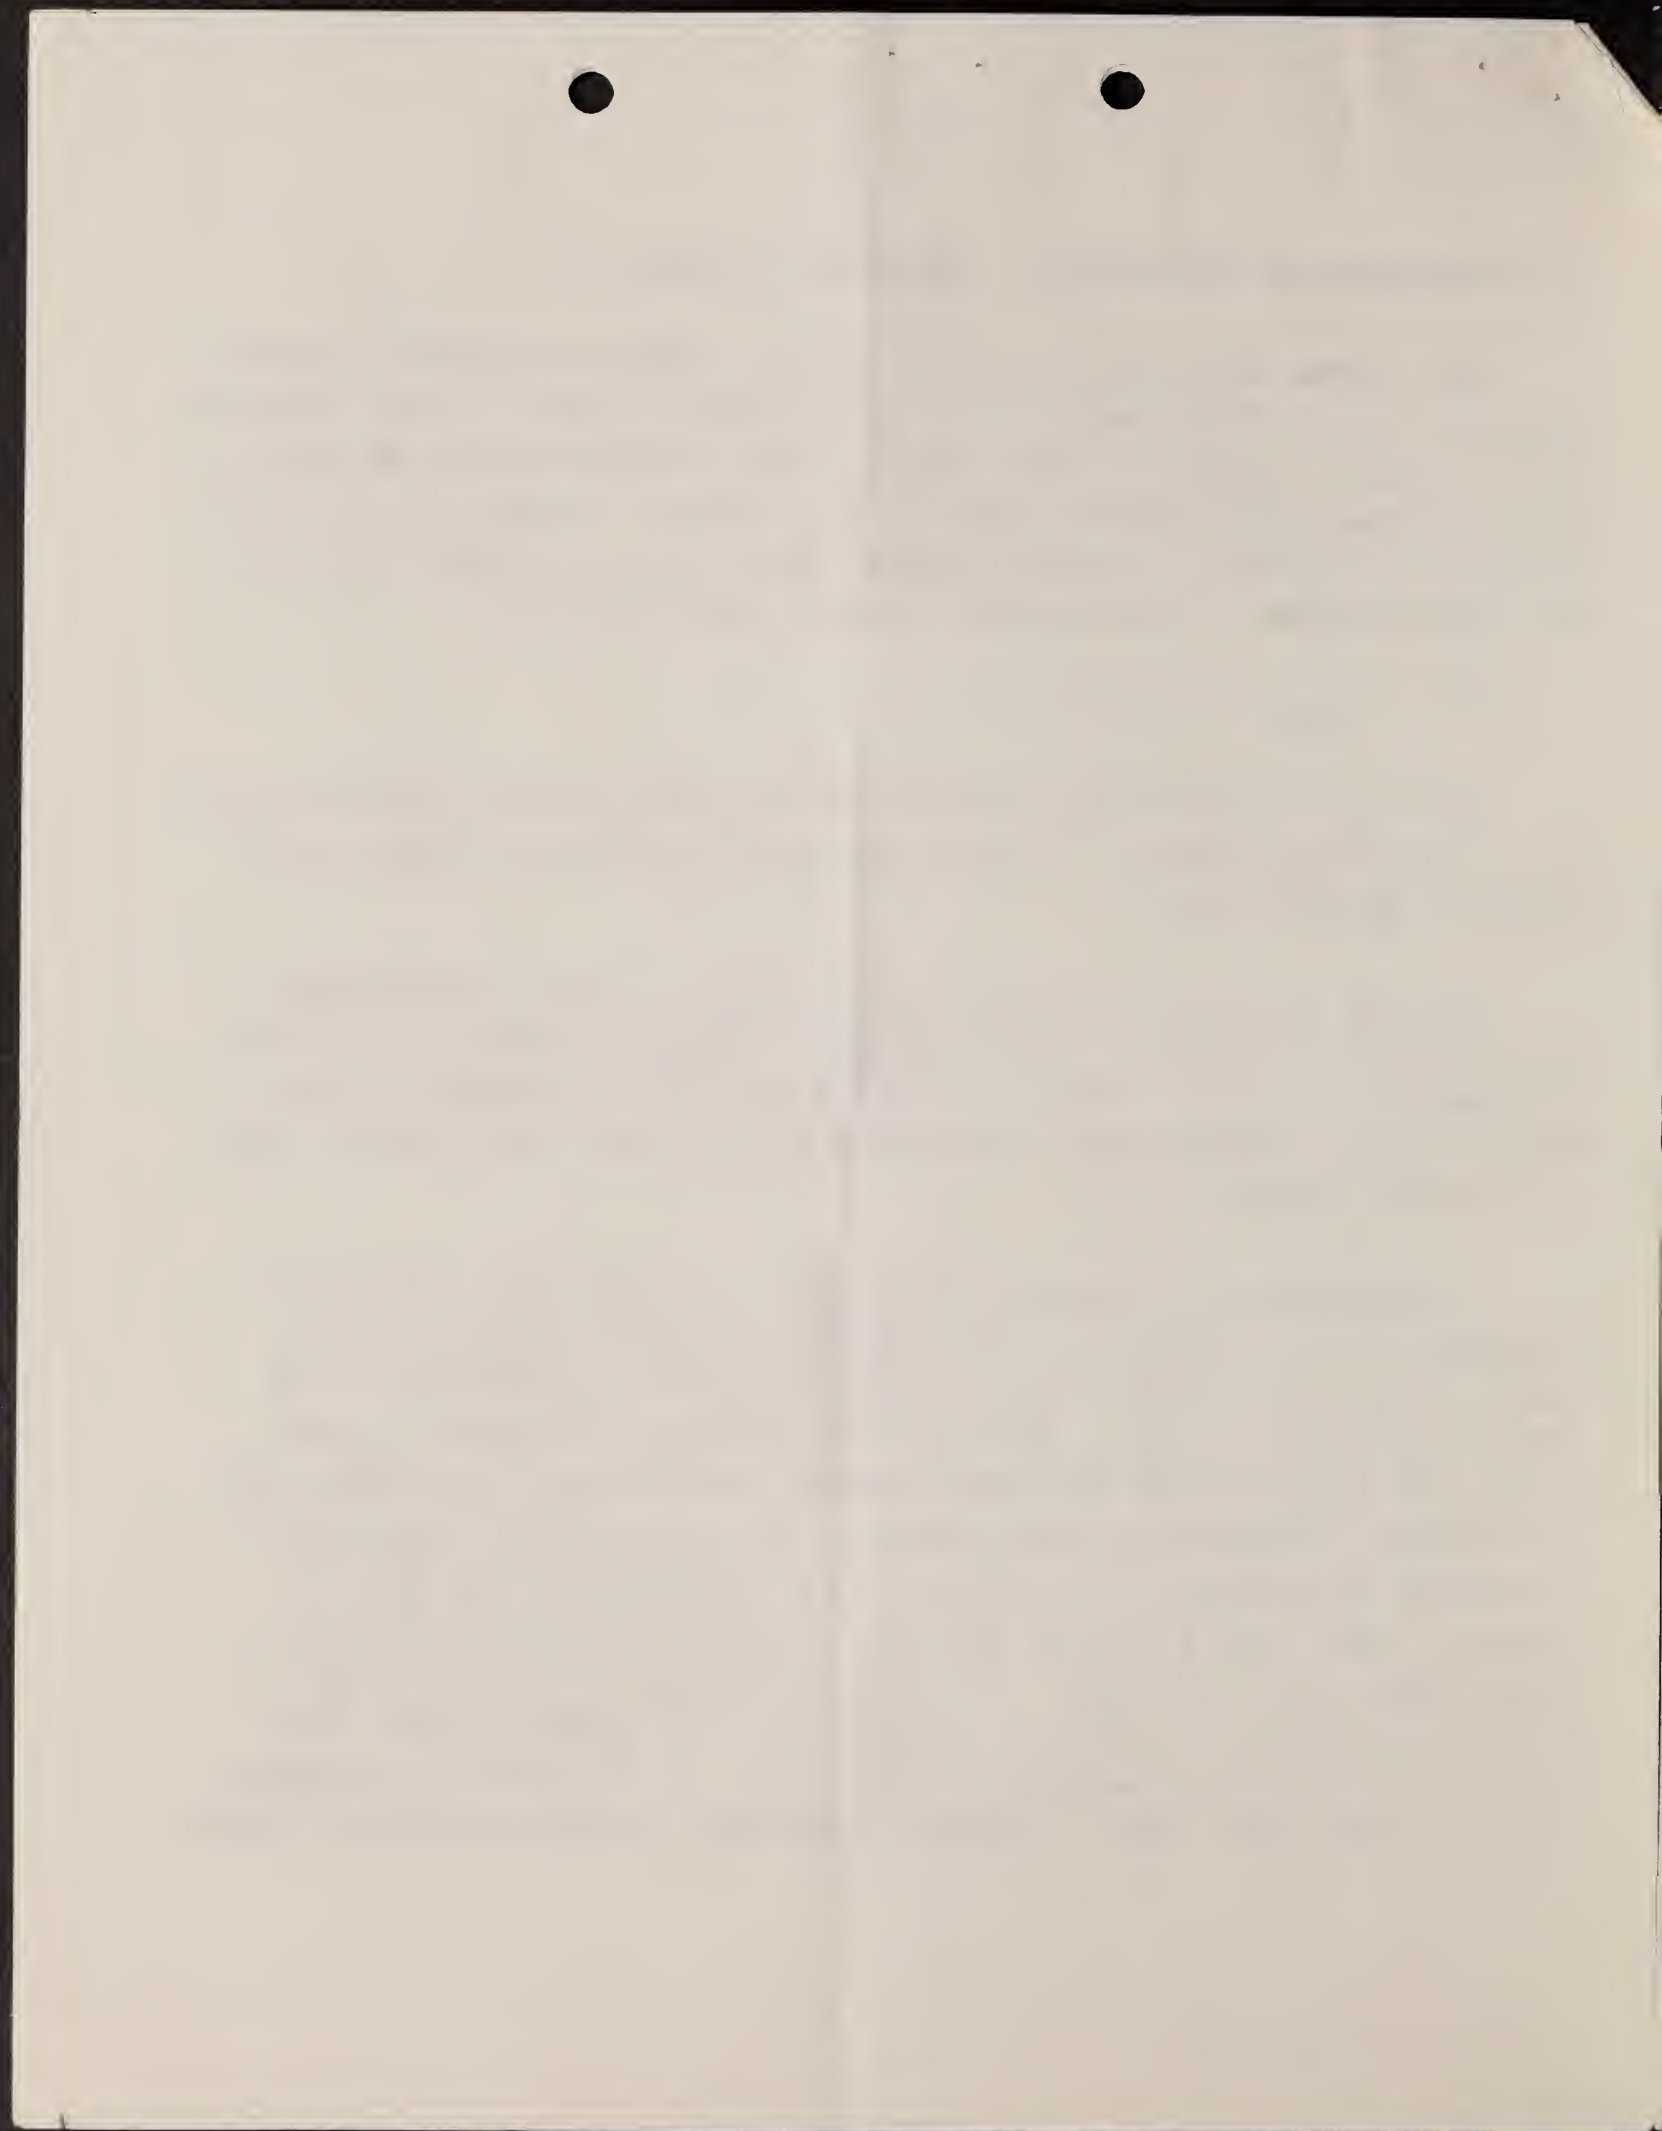

WHAT UTTER NONSENSE TO SAY THAT NUCLEAR POWER STATIONS AND NEUTRON BOMBS ARE SAFE! WITH THREE MILE ISLAND IN MIND, LISTEN TO WHAT PRESIDENT CARTER SAID: "I HOPE THAT ONE RESULT OF THAT FRIGHT WILL BE TO REMIND EVERYONE HOW VASTLY MORE DESTRUCTIVE TO A HUNDRED MILLION PEOPLE, ALMOST HALF OUR POPULATION, A NUCLEAR EXCHANGE WOULD BE.... BETWEEN U.S. AND THE SOVIET UNION. IT IS THE MOST SERIOUS THREAT WE FACE."

THIS IS NOT A TIME FOR WAR.

DON'T BE TOO SURE THAT THE NEW SOPHISTICATED NEUTRON PEOPLE-KILLERS WILL DO NO OTHER DAMAGE. IT TAKES BILLIONS OF DEGREES OF HEAT TO DISCHARGE A NEUTRON BOMB.

YOU ALL KNOW ABOUT HIROSHIMA AND NAGASAKI. REAGAN AND BRESHNEV ARE PLAYING WITH MILITARY TOYS HUNDREDS OF TIMES AS POWERFUL AS THOSE THAT MADE CONTAMINATED RUBBLE OUT OF THOSE HEAVILY POPULATED CITIES. REAGAN WAS THE MAN WHO SAID A FEW YEARS AGO WE COULD PAVE VIETNAM AND PUT PARKING STRIPES ON IT.

IN DESCRIBING THE PROBABLE SCENARIO OF A NUCLEAR WAR, DR. HELEN COLDICOTT SAYS "IF THE BUTTON IS PRESSED IN RUSSIA OR AMERICA, THE WEAPONS GO OUT INTO SPACE AND RE-ENTER THE EARTH'S ATMOSPHERE AT 20 TIMES THE SPEED OF SOUND. AND THEY'RE ACCURATELY ON TARGET. MEANWHILE THE SATELITE FROM THE OTHER COUNTRY HAS DETECTED THE ATTACK AND THE BUTTON IS PRESSED IN THAT COUNTRY. SO A NUCLEAR WAR TAKES ABOUT TWO HOURS TO COMPLETE. IF YOU LIVE IN A TARGETED AREA AND YOU DO MANAGE TO GET INTO A FALLOUT SHELTER, YOU WON'T SURVIVE BECAUSE THE FIRESTORMS WILL BE SO HUGE. ONE 20 MEGATON BOMB (20 MILLION TONS OF TNT EQUIVALENT) WILL CREATE A FIRESTORM OF 3000 SQUARE MILES. THE FIRE WILL USE UP ALL THE OXYGEN IN THE AIR, SO IF YOU'RE IN A SHELTER YOU'LL ASPHYXIMATE. ONE 20 MEGATON BOMB WOULD LITERALLY VAPORIZE BOSTON."

I AM PLEASED TO NOTE THAT THE UNITED CHURCH HAS TAKEN ACTION IN PRINTING THE NEWSPAPER "NOT WITH OUR LIVES, YOU DON'T!" YOU WILL FIND IT IN THE NORTHEX.

DR. VOGON HAS ALSO WRITTEN AN EXCELLENT LETTER WHICH IS ON THE BULLETIN BOARD. PLEASE READ IT.

WE CANNOT ALLOW TWO GUNSLINGERS TO PLAY "HIGH NOON" WITH THE FUTURE OF THE WORLD.

"O SNAP THE FIFE AND STILL THE DRUM
AND SHOW THE MONSTER AS SHE IS!"

THERE IS A TIME FOR EVERYTHING. THERE IS A TIME FOR DEMONSTRATIONS, A TIME FOR LETTERS TO PARLIAMENTARIANS, A TIME FOR ACTION.

Gust and Kathleen Mattson

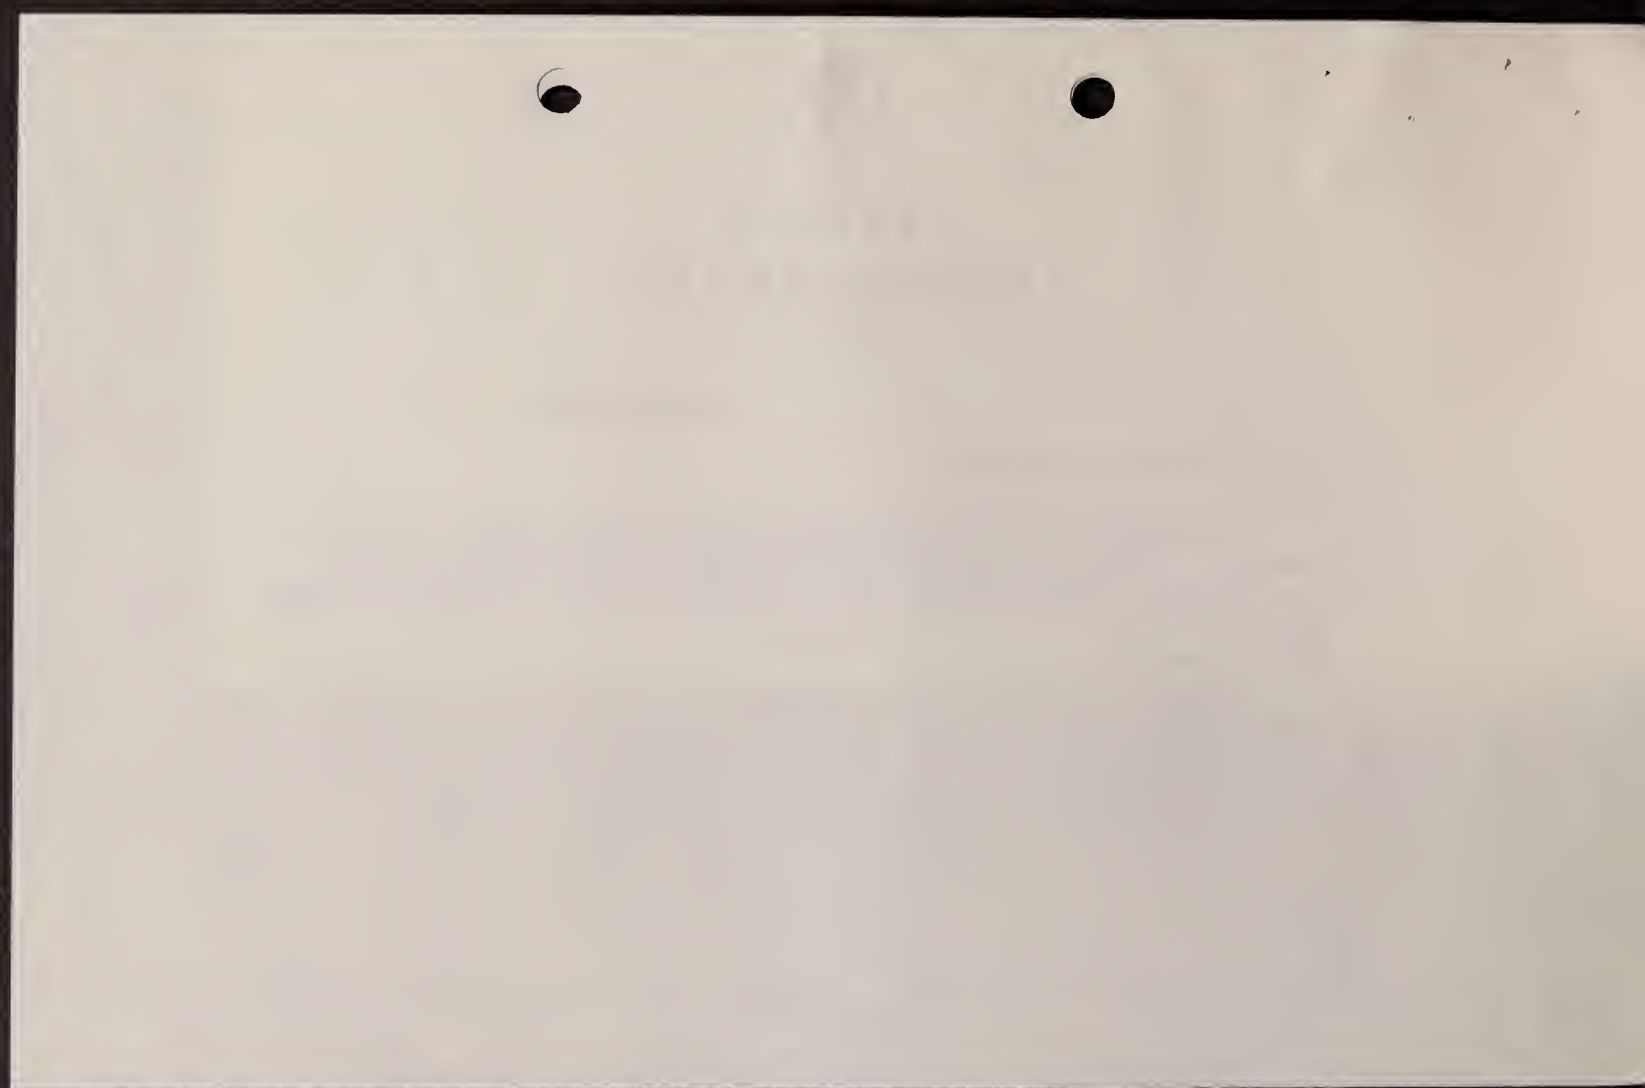

Herewith your membership cards which were received here on 9th July. They are supposed to be signed before delivery, but I am sending them along for you to sign and retain in case you don't get in to the office for some time. This is the procedure I usually follow anyway.

We are getting a slight increase in public response but no rush to sign up yet. We have a way to go before this 'recession' develops far enough to compare with the 'depression' of the '30's. As long as the system provides a pay-off of 15 to 20% for those with money in the bank, it is hardly a full-blown 'depression'. But give it time!

Walt Fryers.

To: CHQ

Subject: New memberships - Gus & Kathleen Mattson.

1. On March 27, 28 last, this Unit manned a booth at the Spring Festival held in King's College here. One result was that we signed up a former member - Gust Mattson, who apparently was a member in an Alberta rural community in the '30's. He paid \$6.00 membership fees to cover the period May to year end. However he forgot to sign his name (our oversight too). After several attempts we have finally, today, got his signature and forward the MA and CHQ's share of the dues herewith.

2. Gus (or Gust) also brought in his daughter, who was our original contact at the Spring Festival. She also made out a membership application, enclosed. He paid not only her fees, but also bought two Monad buttons and two Technocracy magazines for a total of \$11.00. CHQ's share of Kathleen's dues is included in the Money Order.

3. Gus is semi-retired and may give a hand here at this office.

Walt Fryers.

Mr. Grant C. Ingram,
Apt. 1608, 17319 69 Ave.,
Edmonton, Alta. T5T 3S7

We are holding a membership card for 1984 in your name. Please advise if you will be renewing your membership. The annual fee is \$9.00 (Can.). Of course we hope you will see your way clear to renew. We need all the help we can get. Most students are hard-pressed for both time and money. If the fee is a burden, let us know. We could forego this Unit's share (\$4.00), bringing the cost of renewal to \$5.00.

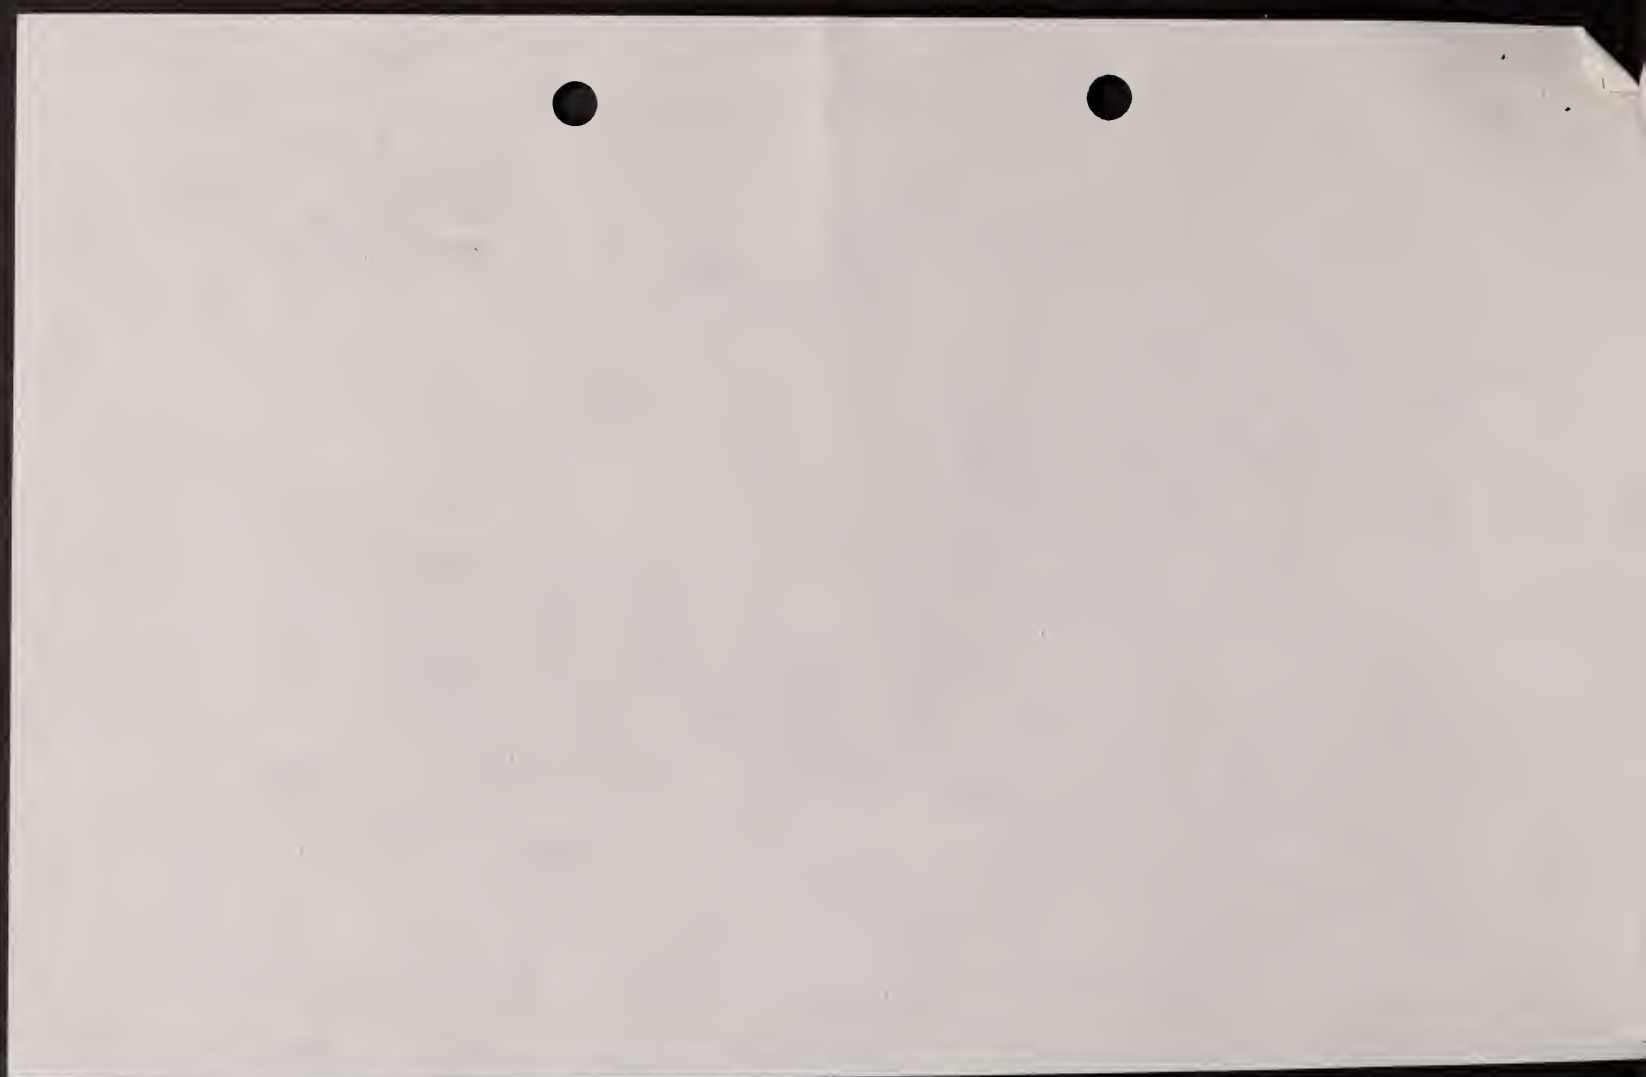

Note our new address. However our phone number is the same.

Walt Fryers, Treas.

CHQ

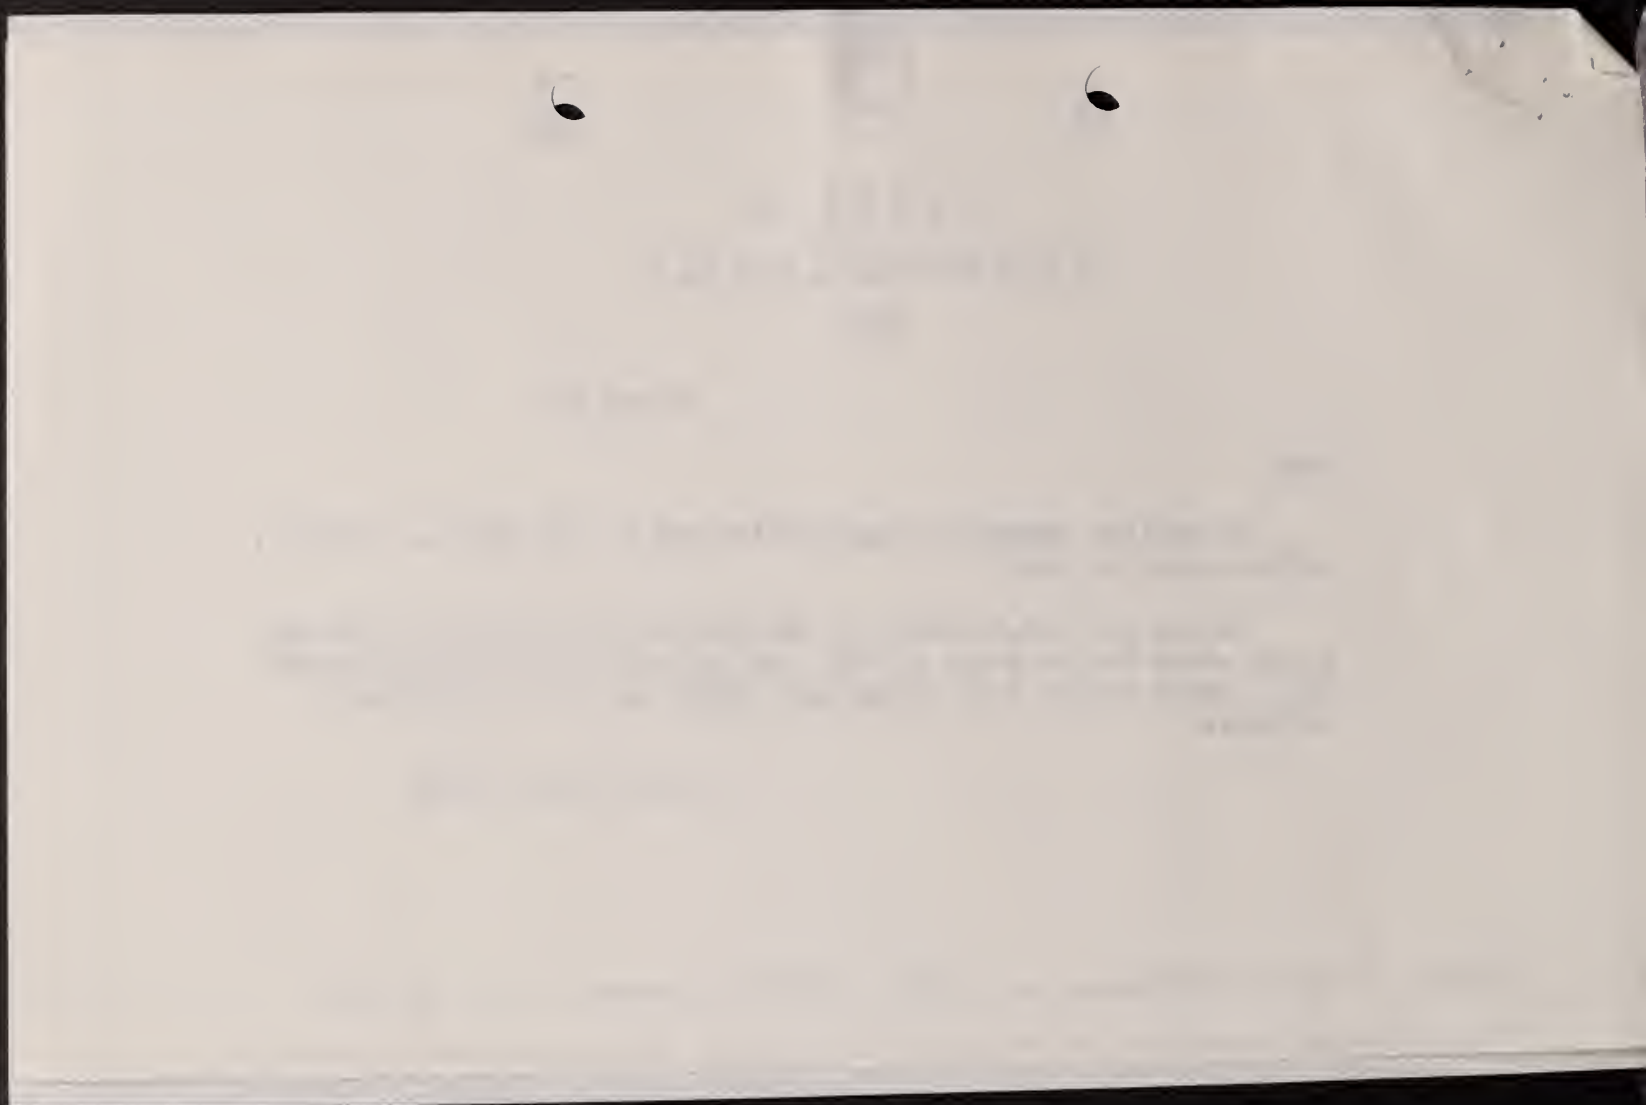

We enclose Membership Application for Grant Ingram, a 3rd yr. Anthropology student.

He has paid \$3.00 dues for the balance of the year, of which \$1.26 would be the share to CHQ. As we have a credit balance with CHQ, please deduct this amount and notify us of the remaining balance.

Walt Fryers, Treas.

Address: 11353 A, Technocracy Inc., 9203 S 112th St., Edmonton, Alta. T6G 2G5
